

# Welcome to Lake County

Be advised that Blue-Green Algae (Cyanobacteria) are in many lakes and streams, and some produce toxins that can harm humans and animals

**BE ALERT and AVOID WATER THAT:**

- Looks like spilled paint, has surface scum, mats or films
- Has green globs floating below the surface

**BE ADVISED** toxins may be present even if there are no visible signs

**DO NOT DRINK** water directly from the lake

**DO NOT ALLOW** children or pets to swim where Blue-Green Algae (Cyanobacteria) are present

**RINSE OFF AFTER** being in the water, shower with clean water, wash hands, and rinse off your pets thoroughly

## Take appropriate precautions for people and pets while having fun on the water
