

California for All Ages Digital Campaign

The [California Department of Aging](#) (CDA) launched the *California for All Ages* digital campaign to address ageism and promote equity in aging. The intention of this campaign is to raise awareness of ageism, however it manifests (personally, organizationally, culturally, and structurally), and direct people to resources to address ageism and inequities in aging.

The *California For All Ages* virtual town hall was hosted by CDA in partnership with Metta Fund, San Francisco Human Services Agency, San Francisco In Home Support Services Public Authority, and the Campaign for Independent Living. The event was recorded and can be accessed via [YouTube](#) or the [California for All Ages page](#).

CDA has created two web-pages with recommended reading, viewing, and resources:

- [Equity in Aging Resource Center](#)
- [California for All Ages Resources](#)
