Home Food Preparation is **NOT** Allowed for Temporary Events

Food must to be prepared on site or at a permitted commercial kitchen.
 Approved baked goods may be prepared at a permitted Cottage Food Operation.

MENU SHEET

Name of person in charge day of event: _____

Number of employees that will be working in food booth: _____

List all food and beverages to be served	Where is food prepared? (e.g. booth, commissary)	Approved food source	How is food prepared? (list equipment or method used)	Food cooking temperature	How will hot/cold food be held?
Ex: macaroni salad, hot dogs, chicken taco, beef taco	Ex: on site inside booth	Ex: purchased at Safeway, Costco, etc.	Ex: BBQ, griddle, boiling, frying, instant pot, etc.	Ex: Chicken 165° F	Ex: cold holding in ice chest, hot hold in chafer pan

Use additional page for more space, if needed.

What is done with leftover cooked food at the end of the day?

The following must be provided as required:

<input type="checkbox"/> Hand washing facility with warm (100° F) water. Must be in insulated container	<input type="checkbox"/> Pre-packaged baked goods properly labeled
<input type="checkbox"/> Hot & Cold food holding units. List type:	<input type="checkbox"/> Potable water source:
<input type="checkbox"/> Booth identification: Facility Name (3 inches), City, State Zip (1 inch)	<input type="checkbox"/> Utensil washing dishpans. Describe set up:
<input type="checkbox"/> Fully screened fly proof booth (for non-prepackaged food prepped or served on site)	<input type="checkbox"/> Disposable food service gloves
<input type="checkbox"/> Overhead cover. List type:	<input type="checkbox"/> Metal food probe thermometer (0° F – 220° F)
<input type="checkbox"/> Floor covering material:	<input type="checkbox"/> Liquid waste containers. Where is it to be disposed?
<input type="checkbox"/> Sanitizing solution: chlorine or quaternary ammonia	<input type="checkbox"/> Garbage container
<input type="checkbox"/> Test Strips: chlorine or quaternary ammonia	<input type="checkbox"/> Overnight food storage. Provide location:

BOOTH DRAWING

All booth vendors shall complete this section *including* those selling or serving prepackaged food.

In the space below, provide a drawing of your booth. Identify and describe all equipment, including cooking and holding equipment, handwashing facilities, work tables, utensil washing sink (containers), food and paper product storage, garbage containers, and customer service areas (see sample below).

-10'-

-10'-

Cooking equipment allowed outside but adjacent to booth: Open air BBQ and cooler for storage of raw meat at the grill, large open flame equipment using propane tanks. **BBQ grills must be properly secured from public access (ex: rope, chain, etc.) to prevent contamination of FOOD and injury to the public.**

Barbecues, grills or other EQUIPMENT APPROVED for outdoor cooking may be located adjacent to the TEMPORARY FOOD FACILITY if local building and fire codes prohibit cooking inside the TEMPORARY FOOD FACILITY.

COMMISSARIES SERVICING MOBILE FOOD FACILITIES IN LAKE COUNTY

A commissary is a food establishment permitted by the Division of Environmental Health.

Sections 114295 and 114297 of the California Health and Safety Code (CHSC) requires that each mobile food facility and mobile food preparation unit shall operate out of a commissary. They shall report to the commissary at least once each operating day for cleaning and servicing operations. All Mobile Food units shall be properly stored, cleaned, and serviced at or within the commissary. No food may be stored or prepared at a private residence, garage or storage unit.

Approval from the Division of Environmental Health is based on the following:

- 1) Applicants shall obtain a letter from the Operator of a Commissary stating his/her willingness to allow the applicant to utilize the Commissary on a daily basis for:
 - a) Storage of food and dry goods
 - b) Filling of potable water tanks and disposal of wastewater
 - c) Necessary food preparation
 - d) Necessary cleaning and sanitizing of utensils
 - e) Cleaning and servicing of unit
 - f) Storage of unit
- 2) The Health Inspector will visit the proposed commissary to verify that dedicated storage is available to the Applicant.
 - a) The necessary storage is based on the size of the unit and the type of food preparation described in the operator's business plan. For example, a typical mobile food preparation unit requires 16 cubic feet of refrigerated storage and 16 cubic feet of dry storage.
 - b) The Health Inspector will verify during routine inspections that the permittee is utilizing the dedicated storage area.

Prior approval by the Division of Environmental Health is required if the permittee later desires to change commissaries.

APPLICANT TO KEEP THIS FORM

FOOD FACILITY (TFF) SELF-INSPECTION CHECKLIST

This checklist is to be completed and posted inside the booth during operation

CHECK LIST REQUIREMENTS		COMPLIES		
		YES	NO	N/A
1		FOOD SOURCE AND TEMPERATURE		
	A	Source: All food shall be obtained from a permitted commercial or retail food establishment.		
	B	Preparation: All food shall be stored and prepared at a permitted food establishment or within the permitted temporary food booth. Food stored or prepared at home or other unapproved location is prohibited. (*See TFF Packet for Nonprofit Charitable exemptions)		
	C	Thawing: Food shall be thawed in the refrigerator at 41°F or less, submerged in running water at 70°F or less, in a microwave, or as part of the cooking process.		
	D	Holding Temperatures: All foods requiring hot or cold holding to prevent growth of harmful bacteria have been identified. Potentially hazardous foods shall be maintained hot at 135°F or higher, or cold at 41°F or below. Holding temperatures are to be checked at opening & every 2 hours booth is in operation, must document temperatures on the Holding Temperatures Log.		
	E	Cooking Temperatures: Food shall be cooked to the minimum internal temperatures specified below: *165°F for 15 seconds for poultry, any stuffing containing fish, beef, pork or poultry, or stuffed fish, beef, pork or poultry. *155°F for 15 seconds for ground fish and ground meat (hamburgers) *145°F for 15 seconds for eggs or dishes containing raw egg, whole fish, and whole meat		
	F	Reheating for Hot Holding: Previously cooked, cooled, and reheated foods shall be reheated to an internal temperature of 165°F.		
	G	Thermometer: A probe thermometer with a temperature range of 0°F-220°F for measuring food holding and cooking temperatures is required.		
2		PERSONNEL		
	A	Health: All employees are healthy. Employees experiencing vomiting and/or diarrhea must be excluded from food related activities. Permit holder requires food employees to report illnesses as required. Employees with cuts or sores on their hands shall wear gloves in addition to proper handwashing.		
	B	Handwashing: Handwashing facilities shall be provided inside the booth (adequate potable warm water in a container with a spigot, with catch bucket for wastewater, soap and paper towels).		
	C	Hygiene: Food workers shall maintain personal cleanliness, wash hands frequently, wear clean clothing, and wear hair restraints		
	D	Food Preparation: Avoid bare hand contact with food. Whenever possible use gloves, tongs, deli paper, spatulas or other dispensing equipment when handling ready-to-eat foods. Change gloves often and wash hands in between changing gloves.		
3		FOOD AND UTENSIL STORAGE AND HANDLING		
	A	Hot and Cold Holding: Necessary equipment and supply to maintain proper food temperatures, 41°F or less for cold foods, 135°F or above for hot foods (i.e. a means of obtaining ice throughout the event, electricity and sufficient heating fuel).		
	B	Storage: All food and equipment (except BBQs) shall be stored inside the booth and at least 6 inches off the ground. Bulk items protected from contamination by a solid waterproof barrier may be stored on the ground (e.g. ice chest).		
	C	Food Storage During Multiple Day Events: During periods of non-operation, potentially hazardous foods shall be stored in a refrigerator at an approved location. All other food shall be stored in sealed containers inside a permitted food establishment. Location:		

CHECK LIST REQUIREMENTS

		YES	NO	N/A
D	Customer Self-Service: Condiments must be dispensed in single service type packaging, in pump-style dispensers, squeeze bottles, shakers, or similar dispensers.			
E	Food Display: All food shall be protected from customer handling, coughing, sneezing, or other contamination. All cooking and serving areas shall be protected from contamination. BBQs should be roped off or otherwise separated from the public. Food sampling shall be conducted in a sanitary manner (*see Sampling Guidelines).			
F	Utensil Storage: In-use food dispensing utensils must be stored in the food with their handles above the food. Wash and sanitize all utensils before storing. Store clean utensils in a sanitary location protected from contamination.			
G	Cross Contamination: Food shall be protected from cross contamination by separating raw animal foods from ready-to-eat foods during storage, slicing, preparation, holding, and display. Provide separate cutting boards, knives, and disposable gloves for handling raw meats, poultry or seafood.			
H	Ice: Ice used for refrigeration cannot be used for consumption.			
4	CLEANING			
A	Ware washing: Provide either a 3-basin set up or a three-compartment sink with potable hot running water for ware washing. Scrap dishes then 1. WASH, 2. CLEAN WATER RINSE, 3. SANITIZING SOAK. Use approved sanitizing tablets or use bleach at 1 tablespoon per gallon of rinsing water. Change water often.			
B	Wiping Cloths: Wiping cloths for food contact surfaces shall be used once then laundered or thrown away, or shall be stored in a clean sanitizing solution of proper concentration between uses. Change sanitizing solution often.			
5	WATER SUPPLY AND WASTEWATER DISPOSAL			
A	Water: An adequate supply of warm and cold potable water shall be available on site for cooking, cleaning, sanitizing, handwashing and drinking. Potable water includes bottled water, water from an approved public water supply, and water from an approved private water supply. Water supply hoses must be made from food grade materials (garden hoses are prohibited).			
B	Wastewater Disposal: Wastewater will be disposed of in an approved wastewater disposal system (e.g., in a sink or toilet) located at _____. Wastewater may not be dumped onto the ground surface, into waterways, or into storm drains.			
6	PREMISES			
A	Garbage: Leak-proof and insect-proof garbage containers with plastic garbage bags shall be provided.			
B	Waste Grease: Waste grease shall be disposed of into a serviceable tallow bin or in another approved manner.			
C	Lighting: Adequate lighting shall be provided.			
D	Animals: No live animals are permitted in or within 20 feet of facility.			
7	FOOD BOOTH			
A	Identification: Facility name, operator name, city, state and zip code shall be posted in a location clearly visible to patrons. Display Health Permit.			
B	Tables, Counters and Shelves: Tables, counters, food prep surfaces, and shelves shall be smooth, easily cleanable and nonabsorbent.			
C	Enclosure: Booth shall consist of four complete sides and a top (plywood, canvas, plastic or fine mesh fly screen) and shall enclose all food and equipment. Note: Local Fire Dept may require proof of fire retardant materials.			
D	Floor: Cleanable floor surfaces (tarp or other cleanable material) shall be provided.			
E	Access Doors and Pass-thru Windows: Tight-fitting closures for access doors openings are required. Pass-thru windows are closeable and not larger than 18" X 12".			

NOTE: This list may not include all the necessary equipment you will need for your individual operation. Please contact Environmental Health at (707) 263-1164 for questions on equipment requirements.

I have provided all of the above for the operation of my food booth. I understand that failure to provide all of the above items may result in immediate closure of my booth. I understand that I must post this completed checklist inside my booth.

Signed: _____

Date: _____

COUNTY OF LAKE
Department of Health Services
Environmental Health Division
 922 Bevins Court, Lakeport, CA 95453
 Ph (707) 263-1164 / Fax (707) 263-1681

Date: _____ Location/ Event: _____

FOOD	INITIAL COOKING/ REHEATING TEMP	TIME & INITIALS	2 HOUR TEMP	TIME & INITIALS	4 HOUR TEMP	TIME & INITIALS	6 HOUR TEMP	TIME & INITIALS	CORRECTIVE ACTION
<i>Example: Chicken breast</i>	<i>165°F</i>	<i>12:15 HT</i>	<i>140°F</i>	<i>2:15 LO</i>	<i>130°F</i>	<i>4:15 LK</i>	<i>---</i>	<i>---</i>	<i>Thrown away</i>

Hot foods must be held at a minimum temperature of 135° F. If the temperature drops below 135° F for a short period of time food must be reheated to 165° F for 15 seconds, then maintained at 135°F or above. If product is below 135° F for 4 hours or more, the food must be destroyed. Record any of these actions in the corrective action column above.

Potentially Hazardous Foods (PHFs) are foods that allow rapid growth of bacteria if not held at the right temperatures. They include any foods of animal origin, cooked rice, cooked pasta, cooked beans, cooked vegetables, sprouts, cut tomatoes, and cut melons.

Avoid Foodborne Illness-Avoid the Danger Zone: Bacteria will grow very quickly on foods held in the danger zone. The danger zone is above 41°F and below 135°F. Bacteria on foods can cause illness or death. Protect your customers by checking food temperatures often.

Minimum Cooking Temperatures of Food (internal temperatures)

Poultry and foods containing poultry	165° F
Stuffed fish, meats, or poultry	165° F
Grounds meats (i.e. hamburger)	155° F
Eggs (to be hot held)	155° F
Fish	145° F
Single pieces of meat	145° F
Eggs (cooked to order)	145° F
All other potentially hazardous foods (i.e. cooked vegetables)	140° F

Use a probe thermometer to check food temperatures

Reheating Temperature for PHFs: 165° F Hot Holding

Temperature for PHFs: 135° F Cold Holding

Temperature for PHFs: 41° F*

*During operating hours of a Temporary Food Facility, a serving line, or a salad bar PHFs may be held at a temperature not to exceed 45° F for up to 12 hours in any 24-hour period. At the end of the operating day any PHFs held at 45° F must be discarded.

*Raw shell eggs, unshucked live molluscan shellfish, pasteurized milk and pasteurized milk products in original sealed containers, and PHFs held for sampling at Certified Farmers' Markets may be cold held at 45°

FOOD PREPARATION TEMPORARY HAND WASHING STATION

****REQUIRED AT EACH
FOOD PREPARATION, OPEN FOOD
SAMPLING & BEER/SPIRITS BOOTH****

The temporary hand washing station shall consist of at least a 5-gallon insulated container with hands free spigot that provides a continuous flow of warm potable water (minimum of 100°F), liquid soap in a pump dispenser, single use paper towels and a 5-gallon bucket to collect the dirty water.
