

Clear Lake levels: 1977, 2014, 2021, 2022, and 2022 Predicted

Yellow Highlight Line is the prediction adjusted to the real data observed by the October 1st with assumption of no precipitation in October-November 2022. Brown Line represents the data observed this water year. Markers on the stages show the highest and lowest levels for the corresponding year. Lowest level ever recorded: -3.50 ft. R. (September, 1920). Last updated 12/1/2022.

● Stage 2022 ● Stage 1977 ● Stage 2014 ● Stage 2021 ● Predicted Stage 2022 updated October
